

COMMERCIAL OFFER No. 1 "VPP - Industrial"
to the Electricity Supply Contract for Consumers

This Commercial Offer is developed by "NRG" LLC (hereinafter referred to as the Supplier) for non-household consumers (Group A) equipped with commercial electricity metering systems (AMR/AMI) and capable of flexibly managing their consumption schedules.

1. Electricity Pricing Formation

1.1. Electricity is supplied at free hourly prices.

1.2. The actual price of 1 kWh of electricity for a specific hour of the day (h) is calculated using the formula:

$$Ph = Ch(dam) + M$$

Where:

Ph – the supply price of 1 kWh of electricity for the corresponding hour, excluding VAT;

Ch(dam) – the actual purchase/sale price of electricity on the Day-Ahead Market (DAM) in the IPS of Ukraine for the corresponding hour, published by SE "Market Operator" (UAH/kWh);

M – the Supplier's tariff (margin) for VPP management services, schedule optimization, and regulatory compliance. The exact margin is fixed in the Consumer's Statement of Accession.

1.3. Value Added Tax (VAT) of 20% is added to the calculated cost in accordance with the current Tax Code of Ukraine.

1.4. Payment for electricity transmission services to NPC "Ukrenergo" and distribution services to the local DSO is made by the Consumer under separate direct contracts with the operators (or can be included in the Supplier's consolidated invoice via an additional agreement).

2. Imbalance Management (Mutual Backup)

2.1. The Consumer is obliged to provide the Supplier with an hourly expected consumption schedule for the next day by 09:00 daily via the Supplier's electronic portal.

2.2. The Consumer becomes a member of the unified balancing group of "NRG" LLC.

2.3. Through internal balancing algorithms (Mutual Backup), the Supplier compensates for the Consumer's deviations using other participants in the balancing group, including facilities with Battery Energy Storage Systems (BESS) and independent generation.

2.4. The Consumer pays exclusively for the residual volume of the imbalance that

could not be compensated within the group, at the prices of the Balancing Market (BM).

3. Payment Procedure

3.1. The billing period is a calendar month.

3.2. Payment is made through planned installments (prepayment) in the following order:

- By the 25th of the month preceding the billing month – 30% of the estimated cost;
- By the 05th of the billing month – 35% of the estimated cost;
- By the 15th of the billing month – 35% of the estimated cost.

3.3. The final settlement for the actually consumed electricity is made by the 10th of the month following the billing month, based on the Acceptance Certificate.

4. Liabilities and Compensations

4.1. For late payments, the Consumer pays a penalty equal to double the discount rate of the National Bank of Ukraine on the debt amount for each day of delay.

4.2. In case the Supplier fails to meet the commercial quality indicators of services, the Supplier shall provide the Consumer with compensation in accordance with NEURC Resolution No. 375 dated 12.06.2018.

5. Validity Period

5.1. This Commercial Offer is valid from the moment of publication on the Supplier's official website and remains in force until December 31 of the current year, with automatic prolongation.
